edgematics®

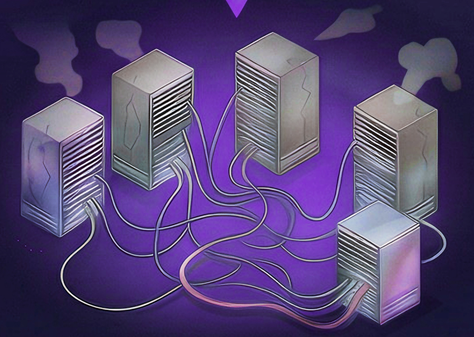
AI-Powered Data Pipeline Migration Toolkit

Accelerate ELT Pipeline Migration by 50-70% from Any Source to Any Target

Why Migrate Now?

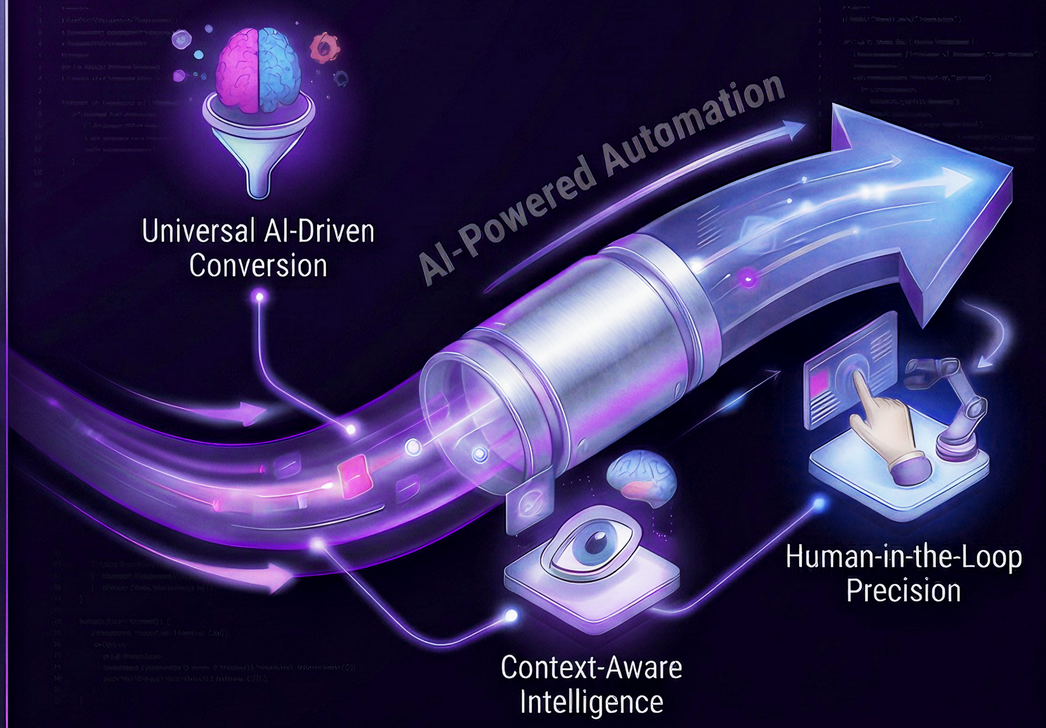
Legacy Lock-in
- Vendor Dependency, Limited Flexibility

High Cost
- Legacy Lock-in Inflates Cost by 70%



Manual Process - Slow, Error Prone, Resource Intensive
- Inefficient, Brittle and High Risk

Transformation Process



Modern Cloud Native Platforms

50-70%
Faster Migration
- Reduce Time to Value Significantly

60-70%
Cost Savings
- Optimize Cloud Spend and Reduce Conversion Overhead

6x
Faster ROI
- Boost 10x Productivity

<5%
Error Rate
- High Quality, Reusable Data Pipelines

Key Capabilities

Universal AI-Driven Conversion
- Intelligently Translate Complex Logic Across Migration

Context-Aware Intelligence
- Analyze Dependencies and Data Lineage for Secure Migrations

Scalable Batch Orchestration
- Efficiently Manage Bulk Data Movement

Complete Auditability
- Track Every Report for Transparency and Compliance
