

Turning Data & AI into Measurable Business Outcomes – Together

**Partner with Edgematic to co-design, build and scale data & AI solutions using our
platforms – PurpleCube AI & Axoma**

Niche. Focused. All-In-Data.

About Edgematics

Edgematics is a specialist data and AI consulting and solutions company. We help organisations become truly data-driven by combining:

Consulting expertise across data strategy, governance, engineering, analytics and AI

Modern platforms – PurpleCube AI for unified data engineering, and Axoma for enterprise GenAI & Agentic AI

Proven delivery experience across multiple industries and regions

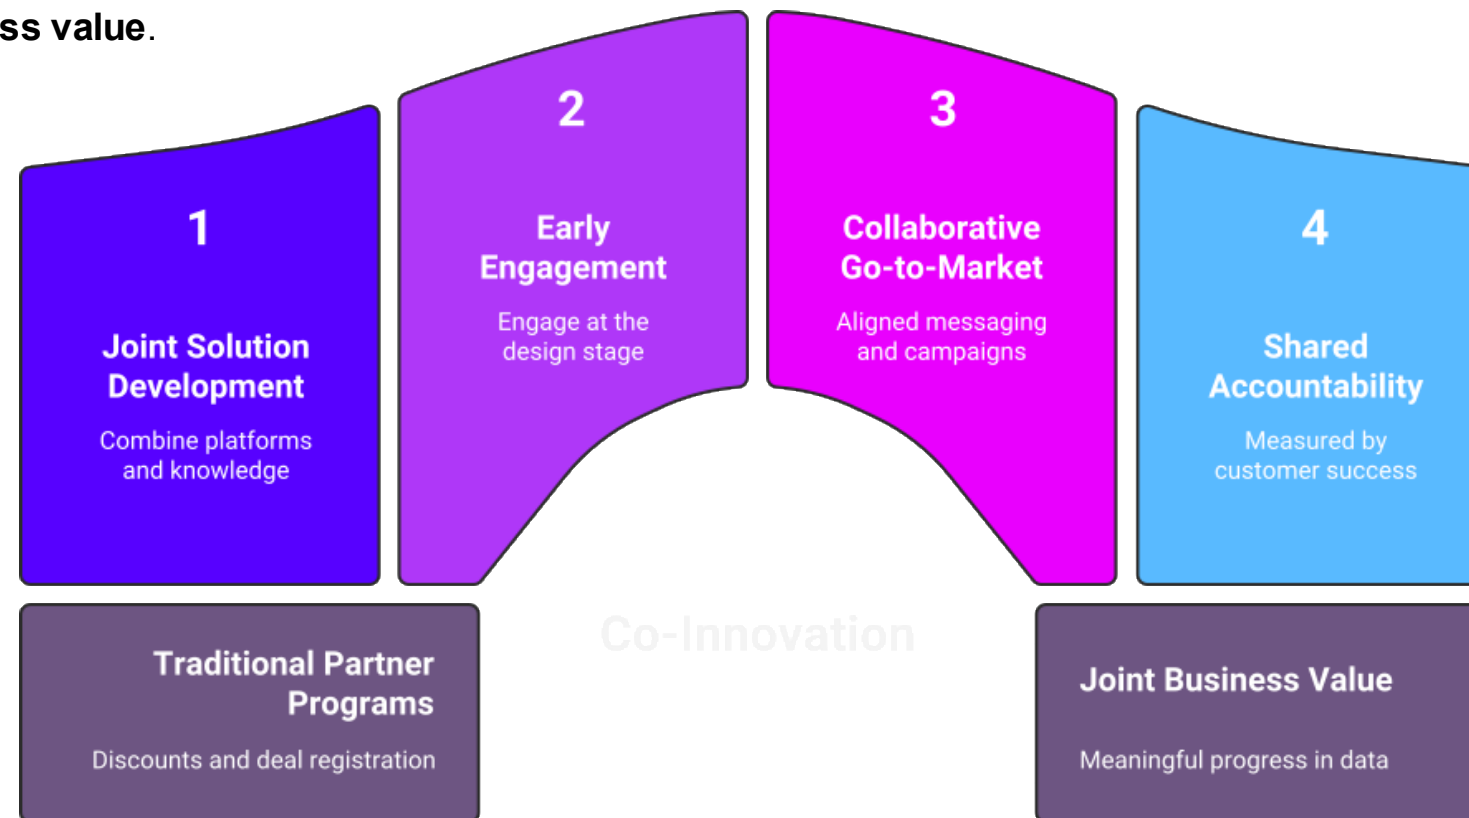

The Co-Innovation Philosophy

We don't see partners as just resellers or additional capacity. We believe the most meaningful progress in data and AI happens when we design, build and scale solutions together.

Traditional partner programs are often driven by discounts and deal registration.

Our focus is different: **jointly creating business value.**

Co-Innovation means:

Our ultimate measure of success:

Joint customer success stories that demonstrate real outcomes in revenue, efficiency, risk and experience.

Commercial Model

Choose the engagement model that fits your business – or combine them.

Referral Partner

10% Referral Fee

Identify and qualify opportunities –
Edgematics leads sales and delivery

On first-year platform subscription
(PurpleCube AI and/or Axoma). Payable
within 30 days of payment receipt.

Resell Partner

15% Discount

Resell platform subscriptions and services
under agreed commercial terms

15% discount on platform subscriptions
(initial & renewal) + 15% off Edgematics
professional services.

Co-Sell / Co-Deliver Partner

Flexible Margins

Jointly pursue opportunities, share delivery
and add your own margin

Transfer pricing provided – add your own
margin when contracting with customers.
Revenue-sharing on joint IP defined per
solution.

Our Platforms

Unified Data Orchestration & Analytics

A unified data engineering and orchestration platform with built-in GenAI assistance for modern data platforms.

- GenAI-assisted data engineering
- Central orchestration & workflows
- No-code, low-code & pro-code
- Data quality & governance hooks

Enterprise GenAI & Agentic AI Accelerator

Enterprise GenAI platform to rapidly experiment, validate and scale AI use cases with security and governance built-in.

- Pre-built GenAI applications
- Enterprise knowledge fabric (RAG)
- Agent & workflow builder
- Security, governance & control

PurpleCube + Axoma: A cognitive data & AI stack – PurpleCube manages trusted data, Axoma activates it through GenAI

Partner Benefits

Grow Revenue & Pipeline

- Add high-value data and AI offerings
